### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Tracy on 24 May 2004.

The application has been amended as follows: Cancel claims 40 and 41.

The following is an examiner's statement of reasons for allowance:

Claims 1, 20, and 39 are considered patentable because of the inclusion of the claim limitations, a voltage applying device interposed between a surface of the image carrier and a surface of the recording medium upstream of the contact position, that is not taught by or suggested by the prior art of record.

Claims 3-6, 15-19, 22-25, and 34-38 are considered patentable because of the inclusion of the claim limitations, a first voltage applying means or device with polarity opposite to that of the toner positioned upstream of the contact position of the reverse surface an intermediate image transfer body and a second voltage applying means or device with polarity identical to that of the toner positioned at or downstream of the contact position of the reverse surface of a intermediate image transfer body, that is not taught by or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
